Asbestos Initial Training Schedule

Course Name	Frequency of Class	Description	Class Fee	DOL Fee
Contractor/Supervisor (5 days)	Monthly	New York State ICR 56 and USEPA and OSHA regulations require that anyone who performs supervision or gives direction to persons in an asbestos work area must possess a supervisor certification. A person with this certification must be designated to the project at all times during asbestos activities. This person will also act as the representative of the entity holding the asbestos contractor handling license. You must be able to read, write and communicate in English as well as the language of any handlers under your supervision. OSHA considers this person to be the "competent" person for all OSHA related regulations applicable to the work site. The course includes 16 hours of practical exercises and a 100 question exam.	\$650	\$75
Inspector (3 days)	Quarterly	This certification is required for any person who investigates for asbestos containing materials, including persons who collect bulk samples, perform asbestos surveys, or report finding of the presence or absence of asbestos in a building. State and Federal regulations may require such activities before renovation or demolition activities begin. The course includes a 50 question exam.	\$550	\$100*
Project Monitor (5 days)	Call to Schedule	This certification is required for any person, other than the asbestos contractor, who will be overseeing the scope, timing, phasing and or remediation methods shall possess a valid project monitor certification. Completion of the course also allows an individual to obtain their air sampling technician certification. The course involves practical exercises and a 100 question exam.	\$750	\$150*
Worker/Handler (4 days)	Call to Schedule	New York State Industrial Code Rule 56 and federal USEPA and OSHA regulations require that any employee whose duties involve the removal, encapsulation, application or enclosure of any asbestos containing material must hold an Asbestos Handler Certification. The course includes 16 hours of practical exercises and a 50 question exam.	\$550	\$50
Operation & Maintenance (2 days)	Call to Schedule	This course is designed for facility staff that may need to disturb asbestos in the performance of their regular duties. They are limited in scope of asbestos work they can perform. We can customize the class to your facility. Please contact Spectrum for more information.	\$450	\$50
Allied Trades (1.5 days)	Call to Schedule	This certification is required for any person performing any limited or special tasks in preparation for or ancillary to an asbestos project, such as a carpenter, electrician, plumber or similar occupation, or any other person who may incidentally disturb asbestos during the course of any employment. The course includes a 50 question exam.	\$450	\$50
Project Designer (3 days)	Call to Schedule	Required yearly review to maintain your certification as a Project Designer in Asbestos. Any changes to New York State Industrial Code Rule 56 and federal USEPA and OSHA regulations will be covered. The course includes a 25 question exam.	\$800	\$150*
Management Plan ¹ (2 days)	Call to Schedule	This certification is required for any person who assesses the hazard posed by the presence of asbestos or asbestos-containing material and/or who recommends appropriate response actions and a schedule for such response actions. The course includes a 50 question exam.	\$600	\$150*
Air Sampling Tech (800-1200)	Call to Schedule	This certification is required for any person who will be performs air sampling associated with an asbestos project. Sample placement, methodology, and quality control techniques are covered in the course. The course includes a 50 question exam.	\$450	\$75*
